

This is from the subpoenaed Barch documents and shows that Barch is in possession of Gagnon Exhibit 1 before the left margin was trimmed and before the Hiera logo and text was added.

- 1.) Dashed Red Lines - Bottom Page with Branch
- 2.) Solid Green Lines - Top Page With Exhibit Sticker
- 3.) Dashed Green Line - Shows edges of Ruled Lines on Top Page with Exhibit Sticker are not parallel with the edges on the other side of the Ruled Lines. In fact they are closer to being inline with the red dotted lines - This is strange unless the side was previously trimmed or cropped which I doubt because the other side is perfectly parallel to the margin.
