Thanks Paul. I am out of the office at a conference. I will address your case when I return. It will likely take me a few days to catch up but we have time to finish discovery as the other side is taking more time too.

Best Regards,

Julia Williams

Hi Julia,
I just found these packed away in my Moms box of stuff.
It's Dr Grobmans notes and reports from the 2002 car accident.
Has MRI reports of my neck day after accident showing fracture then MRI reports from a few months later showing the discs degenerating.
Also has EMG studies
I don't know if this is complete but its what I got from the car accident.
