PD

May I introduce a few cases in my past where I did actually testify in front of a judge and was found to be very credible?

It would take a trip to the county clerks office and a bit of digging to find the auto accident cases and other stuff

I was not deposed in those cases but I did testify in court

Paul

Why didn't we dig into what mast believes makes a good witness?
He opened the door as an expert when he put me on a scale of 1 to 10

I want mast in front of a jury. And I want an expert to testify

Ok I need to cool down

Thank you for today
Paul

Why is there no actual contact between the supposed independent contractor (Gagnon) and the homeowner/chainsaw owner/ (McGuire's)?

You cannot claim someone is an independent contractor after the fact unless there is some proof he was an independent contractor before the fact

Since when do independent contractors bring no tools of their own and only use the tools of the person who contracted them?
Assuming there is a contract

The only tool gagnon provided was his own body as labor for the McGuire's, that's what employees bring to the job, not independent contractors

Ok I can go on and on here

I will wait to hear from you and get the transcripts

Paul
