(708) 981-3635 fax

Dr. L. Berg
4/25/13
4/25/13

① - gabapentin is really good
for pain (and can help w/ spasm)
but you need enough
(1800mg or the maximum
per day)
- ask Dr. L. Berg to increase the
dose

② - you have post-traumatic
dystonia of B kind
We recommend Botox for
spasm
so Botox can be
given
and work on dystonia
Botox is free

③ - in a 8 weeks - K. K. J. 2014

Phone: (847) 981-3630
Fax: (847) 981-3633

⑤ see me
in 5-6 months
K. Kujawa

① if not better by this Friday
July 31st

- call Dr. Sagerman's office to
have the wrist evaluated

② take Tylenol ES (extra strength) (500mg
2 tabs, every 4-6 hours tabs)
for R wrist pain
this week

③ consider occupational therapy
at Centegra if in 1 week and
pain not improving

④ continue Neurontin/gabapentin
10 capsules a day
