**Subject : Bk Case 14-83578 Clerks File**

Attachment available until Dec 18, 2022

Dear Mr Talarico,

Below is a list of (Bk Case 14-83578) documents I purchased at the Dirksen Federal Building from the clerk of the bankruptcy court on 11/15/2022.

I have included these documents as a folder with PDF's attached to this email and may need to be downloaded. (If you have problems with the attached folder of PDF files let me know)

The “\_OCR” in the file name is added because I scanned the paper documents in and ran them through Adobe's OCR (Optical Character Recognition software).

The OCR documents should be searchable and text should be selectable and copyable. (Note: OCR is not perfect, you must thoroughly check and fix any text you copy and paste from it for errors)

I have the original scanned documents that have not been run through the OCR software. (If you the original scans let me know)

Also included in the list below is documents that I know are missing and they are identified in the list by "— Missing -“ before the document number.

I believe I am missing at least 13 documents.

One of the documents I know you received earlier from the Clerks office that I did not receive is 34-1.

Lets talk about the missing documents and what is contained in these documents after you had a chance to download the PDF files attached.

Thank you,  
Paul
