Dear Mr. Dulberg,

As was shown by the image I sent you of a separate form different from the actual documents, the listing on the clerk's web site was unusual.

All documents available were combined into one "Get File" and every other date in the entire case had no other "Get File" which I presume was done to make it very difficult or impossible to use the entire with any confidence that it is complete.

You are welcome.

Has my fees been released for December by your brother?

Sincerely,

Alphonse A. Talarico Esq.

Dear Mr Talarico,

I wanted to say thank you for pulling these files.

Did you pull the entire file or is what you gave me only a partial file?

I had a chance to look through them and the only document I had seen before was the final sentencing order and that was given to me by the department of corrections, so this was all new to me and took some time to go through.

I noticed that conveniently the change of Judges from Hutchinson to the alcoholic Arnold is not documented with a recusal or reassignment order. I find this odd.

Also of the few transcripts available conveniently not transcribed or missing is the date where Hutchinson stated in open court her reason for recusing herself due to her political aspirations of becoming an appeals court judge and her worries over how the local press would play up her decisions in my case in their articles.

Also it should be noted that someone pulled most of these records out of microfiche archives on 8/19/2016 that made them instantly available almost immediately following the Baudins 8/10/2016 agreement to cap the case and enter into the ADR agreement in the circuit court with that fraud Meyer presiding over his kangaroo court in violation of the automatic stay. I don't believe this was a coincidence since the clerk does not expend the money to digitize microfiche archives without a request and payment to do so.

Thank you,

Paul
